FAREWELL 198-200

Dear Class of 2009:

On behalf of the high school teaching staff and administrative team, I would like to extend our appreciation to the Class of 2009 for serving as positive young adult role models for the entire student body at FHS. As was explained to you at our opening day assemblies in August, the attention that the senior class devotes to academics, social and co-curricular pursuits throughout the school year, usually determines the quality of our school culture for all. Please know you did not disappoint.

Whether you move on to college, career, or the military, I urge you all to at least move on somewhere! As ambiguous as this statement appears, it simply means that there is urgency for all graduates to become further proficient at something, and not be satisfied with only a high school diploma. This diploma is not the end point, but rather, a temporary stop on your road to life-long learning. We live in a world that demands higher and higher levels of competence in order to successfully compete and contribute to our ever-growing global economy. Develop your intellect, personality, and degree of responsibility to such levels that make you that much more employable and attractive to institutes of higher learning and business.

With that said, continue to create a healthy balance in your life that involves scholastic pursuit and social pleasure that combine to provide you with a healthy adult life-style. In other words, read a lot, keep yourself physically fit, adopt a hobby or pastime of personal interest, volunteer, be a wonderful role model to your children, or be the favorite aunt or uncle. Think about the most important people in your lives that have influenced you in positive ways, and then adopt those personal traits! There are no secrets to growing more kind, sensitive, accepting, patient, and loving. It simply involves a willingness to become a better person. Now go do it!!!!!!

Good luck and God bless the Class of 2009!!!!!!

Sincerely,

Richard D. Masciarelli

Forever loved & missed

The Final Flight

Don't grieve for me, for now I'm free,
I'm following the path God laid for me.
I took his hand when I heard his call,
I turned my back and left it all.

I could not stay another day,
To laugh, to love, to work, to play.
Tasks left undone must stay that way,
I've found that peace at the end of the day.

If my parting has left a void,
Then fill it with remembered joy.
A friendship shared, a laugh, a kiss,
Ah, yes, these things too I will miss.

Be not burdened with times of sorrow,
I wish you the sunshine of tomorrow.
My Life's been full, I savoured much,
Good friends, good times, a loved one's touch.

Perhaps my time seemed all too brief,
Don't lengthen it now with undue grief.
Lift up your heart and share with me,
God wanted me now, He set me free.

"Life is a series of natural and spontaneous changes. Don't resist them - that only leads to sorrow. Let reality be reality. Let things flow naturally forward in whatever they like."

'Jet' 'Gigi' 'Joseletto' 'Jose Jr.'

I go by this quote! With or without me, things are going to happen, so I take my time. There is no need to speed things up or change things for your own benefit. Let it be and then you will see the true reality. This goes hand in hand with my experiences in high school. With every year of experience (lacking a better explanation) you see the difference between important and pointless problems. Let time be the judge of that. This quote is great to live by, because it describes the greatest thing taken for granted...Life!

High school turned out to be more fun than I thought. I'd like to thank my friends who were there through the bad times as well as the good times, and my family for being there, always. I'd also like to thank some of my favorite teachers for making the best years a little easier. I don't think I would have had half the fun in the past four years if I chose St. Bernard's over FHS.

A journey of a thousand miles begins with one step. When I stepped into school freshman year, I didn't realize the struggles I would go through and the opportunities I would have. My four years of high school have been filled with drama, relationships, friendships, and parties. So live life, laugh always, party hard, and be yourself. The ones I love AB, DW, ST, AC and CH! The ones that have been there SJ, XV, CL, BC, OA, TW, ED, GM, IF, Tallboy, B.LESS! Thanks Mrs. Hytinen for believing in me and my mom for making me who I am today. I love you mom! I love you Ama!

It's been a long four years that have just flown by. All the things that have happened the animes I've seen, the manga I've read, the opportunities I've had, all will stay with me forever. I started out as an annoying, big freshman and slowly changed into the person who I am today, thanks to the help and support given to me by all my teachers and friends. It's been a long, fun four years. May all your years be better than your last.

These four years flew by. I still remember the first day of freshman year looking around at all the upper classmen knowing what they were doing. Now it's only me left, about to graduate and I couldn't be happier. Class of '09 is the best.

I'd also like to thank my brothers and my parents. If it weren't for you mom and dad, I wouldn't try so hard to show you that I can make something of myself. Thanks to all of my friends! I'm going to miss you all! Chris, meeting you was a new beginning for me. Loving you is like breathing and I don't regret any of the decisions I've made with you. I like to go fishing. It is probably my favorite pastime. Also, going with others makes it that much more enjoyable. I'm also a movie junkie. I love kung-fu movies and comedies. My all time favorite action film is "Die Hard 4", and my best comedies are "Scary Movie 1 and 2". My favorite TV show is "Family Guy". It has everything I like to see in a show, comedy and likeable characters. My favorite sport is football. The Patriots are my favorite team, go Pats!

Madalyn Moore

In an old house in Fitchburg
That was covered in vines
Lived one little girl
Who refused to color within the lines
Her name was MADALYN
She was not afraid of mice
She loved winter, snow, and ice
And to the tiger in the zoo
She simply said POOH POOH

Maddy,
May you never change!

Love,
Mom, Dad & Colin
